Little Magaguadavic Lake

Lake Depths
(Little Magaguadavic)

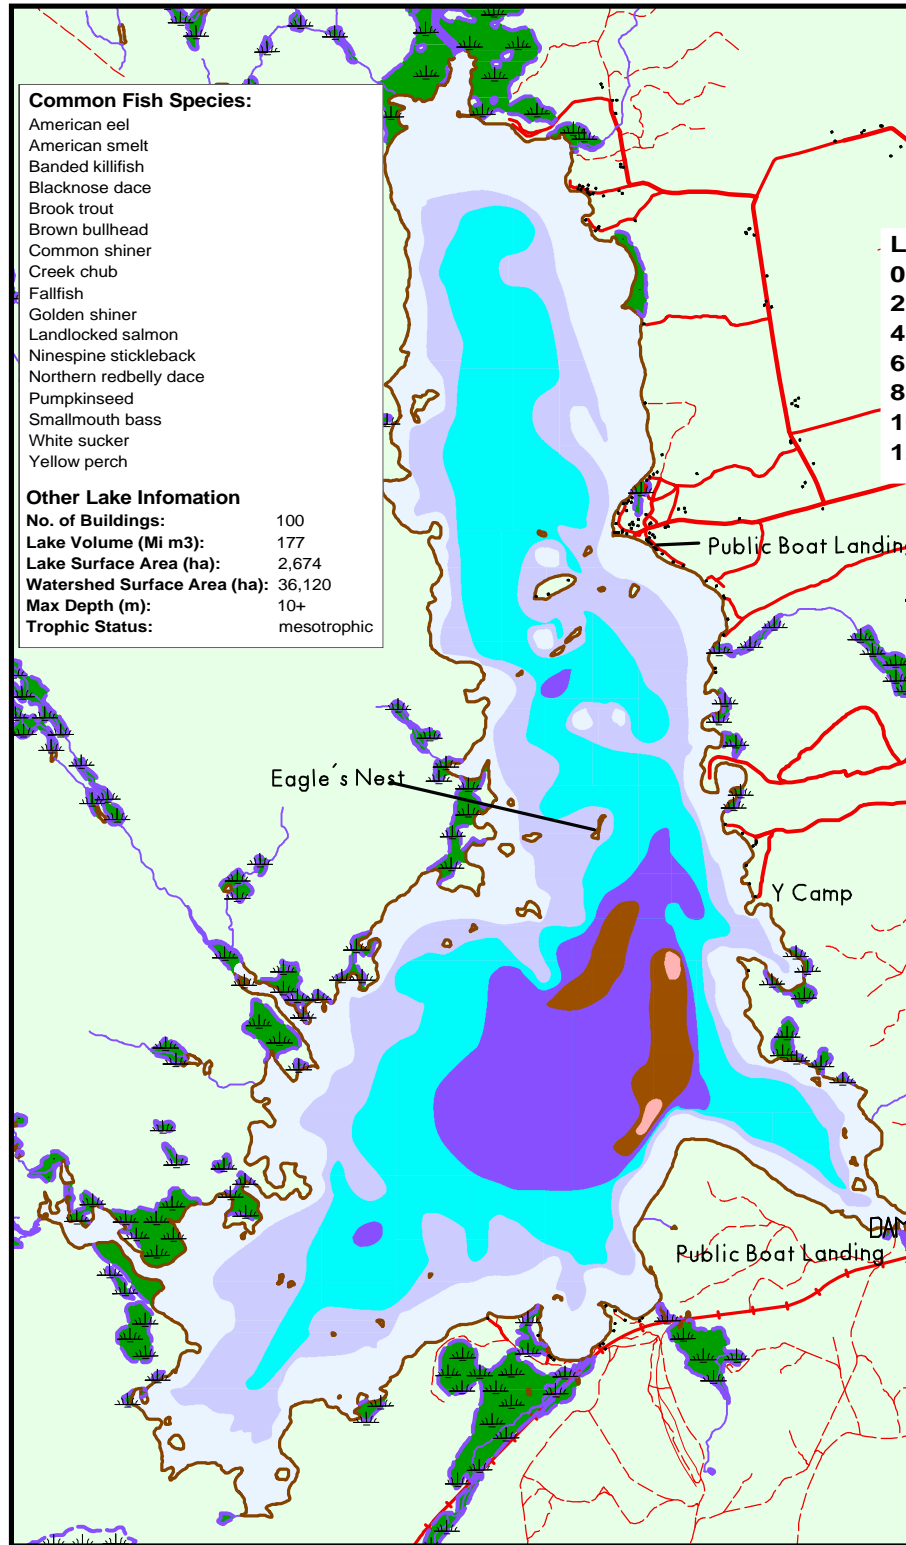

Common Fish Species:

- American eel
- American smelt
- Banded killifish
- Blacknose dace
- Brook trout
- Brown bullhead
- Common shiner
- Creek chub
- Fallfish
- Golden shiner
- Landlocked salmon
- Ninespine stickleback
- Northern redbelly dace
- Pumpkinseed
- Smallmouth bass
- White sucker
- Yellow perch

Other Lake Information

No. of Buildings: 14
Lake Volume (Mi m3): 5.54
Lake Surface Area (ha): 360
Watershed Surface Area (ha): 10,044
Max Depth (m): 3+
Trophic Status: eutrophic

Magaguadavic Lake

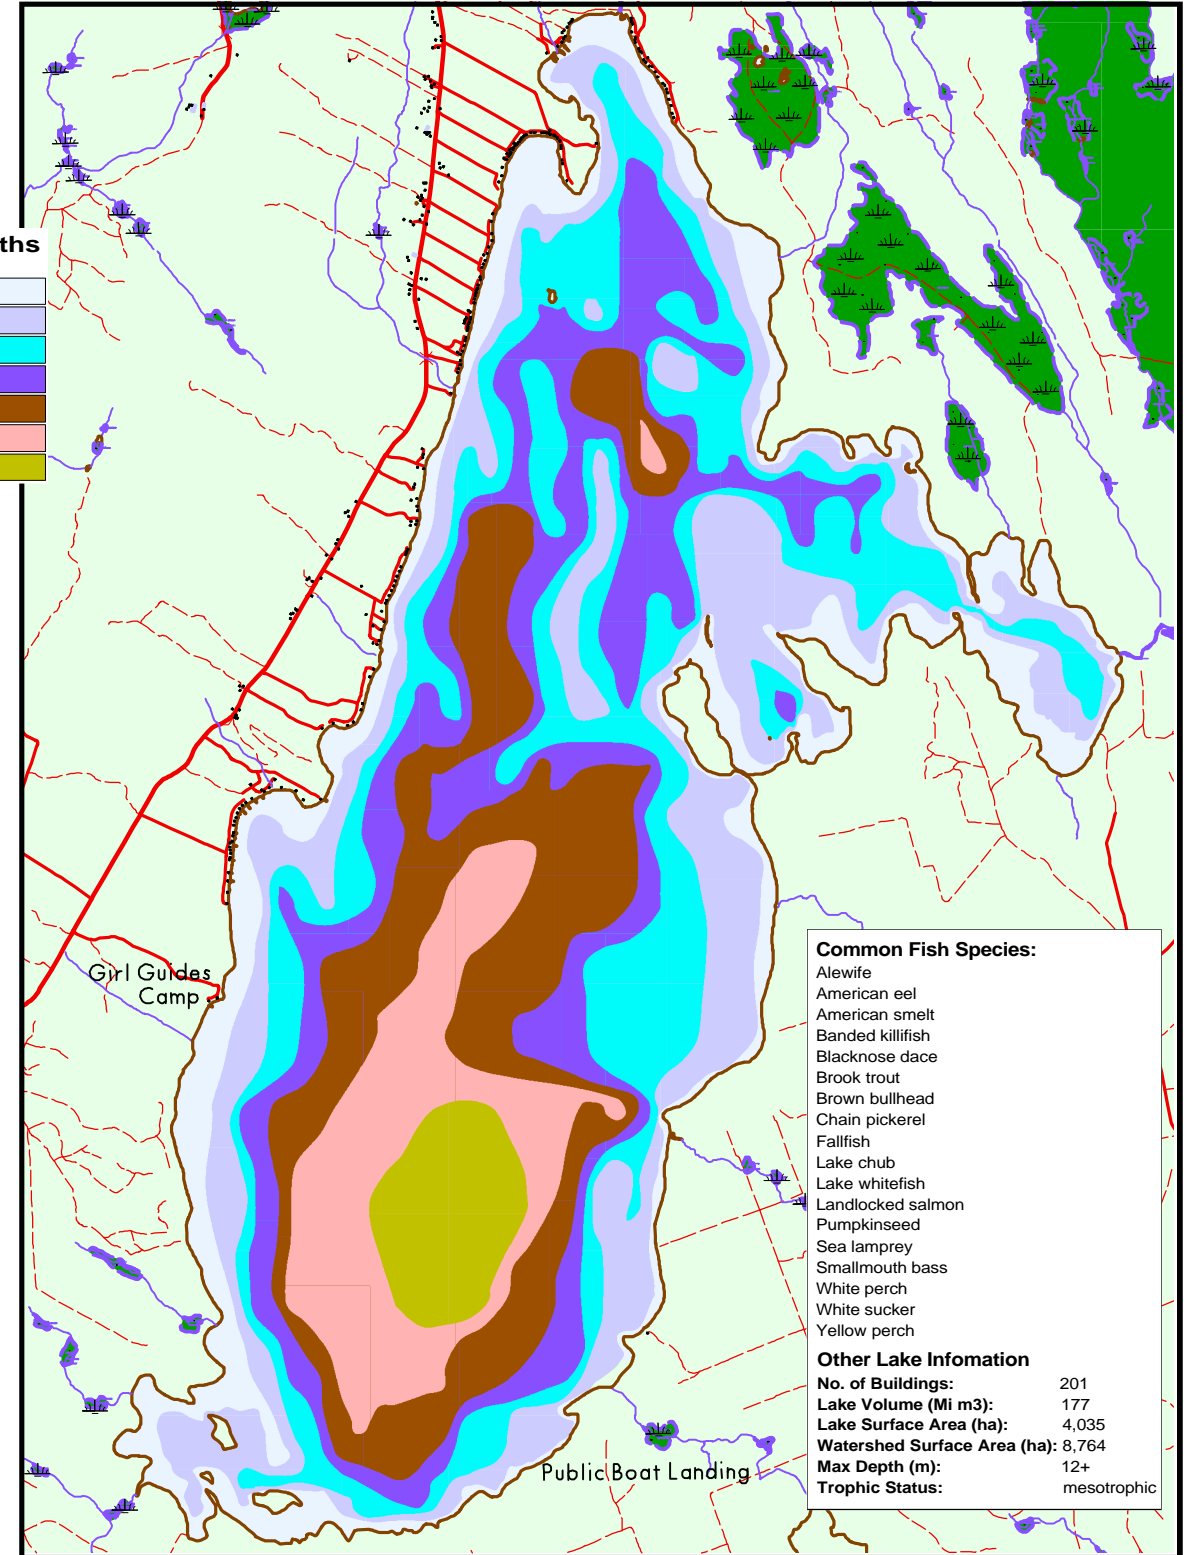

Common Fish Species:

- American eel
- American smelt
- Banded killifish
- Blacknose dace
- Brook trout
- Brown bullhead
- Common shiner
- Creek chub
- Fallfish
- Golden shiner
- Landlocked salmon

- Northern redbelly dace
- Pumpkinseed
- Smallmouth bass
- White sucker
- Yellow perch

Other Lake Information

No. of Buildings: 100
Lake Volume (Mi m3): 177
Lake Surface Area (ha): 2,674
Watershed Surface Area (ha): 36,120
Max Depth (m): 10+
Trophic Status: mesotrophic

Oromocto Lake

Common Fish Species:

- Alewife
- American eel
- American smelt
- Banded killifish
- Blacknose dace
- Brook trout
- Brown bullhead
- Chain pickerel
- Fallfish
- Lake chub
- Lake whitefish
- Landlocked salmon
- Pumpkinseed
- Sea lamprey
- Smallmouth bass
- White perch
- White sucker
- Yellow perch

Other Lake Information

No. of Buildings: 201
Lake Volume (Mi m3): 177
Lake Surface Area (ha): 4,035
Watershed Surface Area (ha): 8,764
Max Depth (m): 12+
Trophic Status: mesotrophic
